

IOU PROGRAM

What is IOU?

The Integrated Optics for Undergraduates (IOU) Research Experience for Undergraduates (REU) program is designed for students interested in participating in hands-on research opportunities in top laboratories in optics and photonics. Selected students are paired with a research project complementing their interests and goals at one of CIAN's partner universities.

Students will also participate in professional development and social opportunities.

STIPEND

A stipend of \$5,000 is provided. Housing and Travel are not included.

WHO IS ELIGIBLE?

CIAN strongly encourages applications from underrepresented minority groups, women, first-generation college students and students that do not have previous lab research experience. US Citizenship or permanent residency is required. Minimum GPA 3.0 required, on a 4.0 scale.
